THE STRONGEST OF ITS KIND

10 mm arm profiles, in house engineering
higher load capacity due to the use of high strength steel
120 years of experience
substantiated by structural calculations
150kg! load capacity per arm
(for comparison, alternative products have a capacity of 50 kg)
stainless steel fixing materials and chemical anchorage

The multifunctional awning for your terrace: The Soons Scissor Arm Awning

The scissor arm awning turns your terrace into a real eye-catcher.
Unique in so many ways...
